

Construction Law

Best & Flanagan's seasoned construction litigation team adopts a novel approach to the resolution of construction claims: we listen to our clients, take a hard look at the facts and then act both boldly and nimbly to drive a resolution. Our team represents a wide range of parties in the construction industry: owners, developers, general contractors, subcontractors, suppliers, risk managers and captive groups. We work on public, private, hybrid, commercial industrial and multi-family residential projects for both public and private and hybrid projects.

We proactively manage our clients' issues through contract negotiations. We preserve and prosecute their rights to payment, address performance issues and resolve construction defect claims through direct negotiations, mediation, arbitration and litigation. While our clients and their work are varied, our goal is the same: deliver the best service.

We never follow a template when representing our construction clients. Instead, we approach each client and issue with the mindset of what is the best resolution and how can we best achieve that resolution. Our team draws from decades of experience that allows us to efficiently evaluate a situation, have a candid discussion with our clients about the strengths and weaknesses of their positions and develop an effective strategy to drive the matter to resolution. We are strong advocates and adept at achieving resolutions through direct negotiations; however, our team is comprised of litigators and we remained poised to try every case to judge or jury.
