

Divorce

Best & Flanagan attorneys know that going through a divorce is one of the most difficult challenges many of our clients will face. Going through a divorce can be a very overwhelming process, and we support our clients every step of the way. Decisions made during a divorce can have a lasting impact on family. Our lawyers have resolved divorce matters ranging from simple and uncontested dissolutions, to highly contentious divorce litigation involving extensive assets and complicated child custody issues. No matter the scope or complexity of the divorce, we work tirelessly to ensure the rights of our clients.

Each divorce is unique and depends on the personal circumstances of the client. Our attorneys strive to make sure the division of any assets and ownership interests are divided fairly, including a home, business, bank or other financial accounts, pensions, stock rights, vehicles or other property, as well as individual or joint debt. We are highly adept at defending our client's position when it comes to spousal maintenance. In the event our client has children, we advocate for custody and parenting time, child support and expenses.

Often, our team utilizes mediation and arbitration before resorting to traditional litigation. We maintain a network of experienced mediators, evaluators, appraisers and experts in order to adequately settle our client's case. After settlement efforts have been exhausted, we zealously litigate on behalf of our client at trial. After the divorce is finalized, we also help with the transfer of assets awarded to our client by preparing titles, deeds or orders as needed.
