

Real Estate Collection, Foreclosure & Bankruptcy

Best & Flanagan zealously advocates on behalf of creditors and against debtors who fail to adhere to their financial obligations. Our legal representation ranges from assisting financial institutions to working on behalf of privately-held businesses.

In order to maximize our clients' recoveries in an effective and economical manner, our attorneys are adept at navigating the waters of various avenues of recovery, such as loan modifications, loan workouts, title insurance claims, replevins, foreclosures, secured and unsecured collections, UCC sales of collateral, creditors' bankruptcy representation, garnishments, commercial and residential evictions, and other judgment collection and asset recovery remedies.

Our extensive experience has enabled our clients to obtain successful results, from the recovery of outstanding monies to the possession of real estate assets via the foreclosure process related to hotels, resorts, golf course, office and apartment buildings, condominium and townhome developments, shopping centers, high rises, and commercial and mixed-use properties.

Because of our unique perspective and proven capabilities, on occasion, we also represent the rights of commercial debtors, including real estate owners and developers.
